The following lists contacts and other web sites that you'll need to have on hand in the process of addressing the condition of your roads and for forming a Public Utility District (a PID) if you choose to do so.

Initial Contacts - County Transportation Department (BCTD)

These will be your initial contacts with the County as you evaluate the options you have for rehabilitating the roads in your District and begin the process of form a PID:

Mike Thomas	Engineer, BCTD	mthomas@bouldercounty.org	720-564-2655
George Gerstle	Director, BCTD	ggerstle@bouldercounty.org	303-441-3955

As your efforts to address your road conditions proceed, your contact own list with the County will grow.

Routine Road Maintenance

These people can be contacted if you have issues related to routine road maintenance including pot hole repairs and street sweeping:

Bob Kiepe	Road Supervisor, BCTD	bkiepe@bouldercounty.org
Ted Plank	Road Maintenance Mgr, BCTD	tplank@bouldercounty.org

Lists of electors and property owners

These links will take you to places where you can get lists of electors or property owners. The County charges a small fee to obtain a list of electors. What you'll get from them is a list of all registered votes in the County. You'll need to extract from this the ones with addresses in your District. The search for property owners is interactive and will return a list online of current owner of taxable property in a designated subdivision. You'll need the legal description of the subdivisions in your District in order to use this feature.

Property Owners:	http://maps.boco.solutions/propertysearch/

Boulder County Commissioners -Agenda

This website will give you the ability to request emails informing you in advance of what is on the Boulder County Commissioners' agenda. You should review these for any scheduled discussions regarding your PID.
